[Project No. 12589-001-CO]

Public Service Company of Colorado; Notice of Availability of Draft Environmental Assessment

April 28, 2009.

In accordance with the National Environmental Policy Act of 1969, as amended, and the Federal Energy Regulatory Commission's (Commission or FERC) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed the application for a new major license for the Tacoma Hydroelectric Project (FERC No. 12589), located on Cascade, Little Cascade and Elbert Creeks in San Juan and La Plata Counties, Colorado. The project currently occupies, in part, 233.4 acres of Federal land in the San Juan National Forest administered by the U.S. Forest Service.

Staff prepared a draft environmental assessment (EA) that analyzes the probable environmental effects of relicensing the project and concludes that relicensing the project, with appropriate staff-recommended environmental measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

A copy of the EA is on file with the Commission and is available for public

inspection. The EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link.
